The number and name of the Howard County block is shown on the upper left corner. For each bird, there are columns for the current 2002-2006 atlas, the 1983-1987 atlas and the 1973-1975 atlas. Each column shows the status (breeding category), and the quarterblocks where the bird was found. In each atlas, the highest category of breeding evidence for the block was assigned to each quarter-block where the species was observed. The species was mapped only for those quarter-blocks in which it had actually been detected.

These are the breeding categories used: **2002-2006 RESULTS**  
 O - Observed PO - Possible PR - Probable CO - Confirmed  
 January 23, 2006

**2002-2006 RESULTS IN AOU SUPP 45 ORDER**

These are the breeding categories used:  
 O - Observed PO - Possible PR - Probable CO – Confirmed
