## Field Trip: Fungi Search

**Trip Leaders:** Bob & Jo Solem

**Date of Trip:** Sunday, September 28, 2014

**Location:** Western Regional Park

**Details:** Sunny, pleasant, but a little dry for fungi.

**Number on trip:** 6

- Bitter Oyster (*Panellus stipticus*)
- Black Knot of Cherry (*Apiosporina morbosa*)
- Blewit (*Lepista nuda*)
- Brittlestem (possible *Psathyrella deliniata*)
- Broad Gill (*Megacollybia rodmanii*)
- Ceramic Fungus (*Xylobus frustulata*)
- Chicken of the Woods (both *Laetiporus concinnatus* and *L. sulphureus*)
- Coral Slime (probably *Ceratium porioides*)
- Coral Spot Fungus (*Nectria cinnabarina*)
- Eyelash Cup (*Scutelinia scutellata*)
- False Turkey-tail (*Stereum ostrea*)
- Fawn Mushroom (*Pluteus cervinus*)
- Gem-studded Puffball (*Lycoperdon perlatum*)
- Gilled Bolete (*Phylloporus rhodoxanthus*)
- Inky Cap (there are several species)
- Jellied False Coral (*Tremellodendron pallidum*)
- Lemon Drops (*Bisporella citrina*)
- Mycena (there are several species)
- Pear-shaped Puffball (*Lycoperdon pyriforme*)
- Pigskin Puffball (*Scleroderma citrinum*)
- Pipe Cleaners (*Stemonitis* ssp)
- Powder-cap Amanita (*Amanita farinosa*)
- Spindle-shaped Yellow Coral (*Clavulinopsis fusiformis*)
- Tender Nesting Polypore (*Hapalopilus nidulans*)
- Thin-maze Flat Polypore (*Daedaleopsis confragosa*)
- Turkey Tail (*Trametes versicolor*)
- Violet-toothed Polypore (*Trichaptum bifforme*)
- White Cheese (*Tyromyces chioneus*)
- White Coral (possibly *Clavulina coralloides*)
- Wolf's Milk (*Lycogala epidendrum*)
