MEMBERS' MEMORIES

Linda Roberts

2/19/22 owl workshop with Jay Shepard; warm and sunny at first, then wicked windy and cold. We found owl droppings and pellets. Highlight: Jay id'ed a turkey feather and proceeded to call. You just never know...

Over the years I've used *Birding Howard County, Maryland* by Jo Solem. Who knew I'd meet her at a meeting and she would sign my copy? Yay!

My family and I went on numerous dragonfly counts with Bob Solem. We're grateful (and lucky) for his patience and knowledge. He opened up the world of dragon flies to us.

At every event people are friendly, knowledgeable and welcoming. Thanks everyone!
