

Howard County Field Trip

on Monday, October 30, 2023

9:30 am - 12:30 pm

at the Howard County Conservancy

10520 Old Frederick Road, Woodstock

Park in the lot then go directly to the SkyWatch.

Directions: On the left of the parking lot is a barn. Walk to the right of the barn on the path along the fenced garden for a few yards. Make a left at the brown donation box with the green sign on it. The SkyWatch is up ahead on that path.

This stationary field trip will be a hawkwatch for migrating raptors and other potential flybys. You will be sitting and/or standing at the SkyWatch. People will come and go all morning. Binoculars are essential. Spotting scopes are helpful and there will probably be a few available on the site for others to share. Bring a lawn chair if you wish, a hat, and water. Let people know if you are a beginner so they may help you.

Next SkyWatch Viewing: Saturday, November 4 with Russ Ruffing
