Howard County Midwinter Count, February 1, 2025

Joe Hanfman

A cool and 75% cloudy day with temperatures 37 to 43° F, winds 10 mph and no precipitation. The ponds were 95% frozen and rivers were flowing. We recorded 91 species which is slightly above the average of 88.3 species recorded in the last 39 years. The total number of individual birds was 27,037 which is 19,231 below the average number of birds recorded and 137,863 below the maximum number of birds recorded.

The top birds were Eastern Screech-Owl, Northern Saw-whet Owl, Common Loon, and a Baltimore Oriole was seen for the eighth time on the count.

All-time high counts were recorded for Cackling Goose (8), Double-crested Cormorant (5), Eastern Screech-Owl (12), Northern Saw-whet Owl (3), Peregrine Falcon (2) and Common Raven (32).

All-time low counts were Ring-billed Gull (128).

47 of the 90 species tallied have been seen on all 39 Midwinter Counts. 79 of the 90 species tallied have been seen on at least 50% of all 39 Midwinter Counts.

The birds that have been seen on more than half of the counts but missed this year were Mute Swan (not expected), Wood Duck, American Wigeon, Canvasback, American Coot, Wilson's Snipe, Great Black-backed Gull, Gray Catbird, Brown Thrasher, Pine Siskin, and American Tree Sparrow.

Many people contributed to the success of the day. 67 parties of 92 observers spent 172.4 hours and covered 156.6 miles on foot and 388.0 miles by car. Another 6.9 hours were spent feeder watching, plus 6.6 hours stationary and 4.1 hours of owling.

Chuck Stirrat updated the taxonomic order, summarized the area worksheets, and provided field and feeder checklists. Area leaders arrange coverage, do follow-up if necessary, and compile area totals. Their names are in boldface below (*anyone who counted in more than one area or also at a feeder is listed just once*). The tally was done in person thanks to Meg and John Harris.

Land permission from Howard County Dept. of Recreation and Parks, Washington Suburban Sanitary Commission, and many private property owners assure good coverage—we are extremely grateful.
