

Maryland Native Plant Guide – Piedmont Region

Produced through a partnership between University of Maryland Extension, the Maryland Native Plant Society, the Maryland Department of Natural Resources, and the Maryland Department of Agriculture, this 180-page downloadable PDF booklet includes:

- educational articles to support gardening success
- photos and descriptions of over 300 featured plants
- plant lists for specific site conditions
- aquatic plant recommendations suitable for ponds
- advice on managing invasive species
- planting approaches in the face of climate change
- an index of plants native to the Maryland Piedmont
- planting strategies from nature writer Nancy Lawson
- tips for dealing with deer (includes deer-resistant plants)
